Grant funds may be used to compensate the artist for time spent creating work, to purchase materials, or to rent equipment or space for the process. Criteria for Selection

Successful applicants will address all of the criteria to the best of their abilities. Applications will be evaluated on the demonstration of:

- There is strong potential for public presentation

Criteria for Selection, continued

project management (30%)

- A straightforward and reasonable budget is demonstrated
- If collaborating, key individuals with the necessary expertise to complete the project are listed

application quality (10%)

- Narrative descriptions and plans for creating the work are clear and the panel understands the proposal
- The work samples provided are relevant, cohesive, and speak to the potential of the new work to be created

Grantee Requirements and Expectations

The Creation Grant funds must only be used for the creation of the work. We encourage applicants to use the funding to pay for their time (and other artists' if applicable) spent creating new work. Other eligible expenses for this grant award are:

- the cost of purchasing materials or equipment for the creation of the work. The grant award may not be used for more than \$1,000 towards the equipment expense
- the cost of renting space outside of the artist's home to create the work

Grant funds may not be applied to any aspect of the public presentation of the work once the creation is completed.

Grantees will be expected to sign a contract agreeing to specific funding requirements. A final report will be due thirty days after the project is complete, and no later than September 30, 2020.

Application and Deadline

The deadline is June 3, 2019 and the application is [available online](#). Activities outlined in the project must take place between September 1, 2019 and August 31, 2020. Applicants will be notified of their funding status by August 1, 2019.
